CHROME BILLET DASH INSERTS & BLACK ANODIZED DASH INSERTS

 **MAINTENANCE:** To keep your new dash insert looking its best, apply a high-quality chrome polish to it (for chrome controls) or clean it thoroughly (for black controls) every time you detail your motorcycle.

BILL OF MATERIALS

Quantity	Part
1	Dash insert - finish and color insets vary by kit

WARNING: Your safety depends on the correct installation of this kit. Use appropriate service manual procedures. If the procedures are not within your capability or you do not have the correct tools, have a trained mechanic/technician install this part for you. Improper installation of this part could result in injury or death.

STEP 1: Begin the installation by thoroughly cleaning the dash panel on your motorcycle, ensuring it is free of grit, oil, grease etc. The Battistinis dash insert is installed using high-adhesion tape which depends on a completely clean surface.

STEP 2: Complete the installation by peeling the backing from the high-adhesion tape strips on the back side of the panel. Finish the installation by pressing the dash insert firmly in place.
